

Certification Prep

Final approval requirements, scoring rubric, capstone prompt, and pass standard

Days 55-60 - Certification and Lead-Demo Approval

Focus:

- Prove demo readiness.
- Identify where the SE still needs support before fully owning live calls.

Certification requirements:

- 15-minute compressed demo
- 45-minute full demo
- One assigned deep dive
- One surprise discovery branch
- Five objection-handling questions
- One written RFP-style answer

Certification rubric:

- Story clarity
- Product accuracy
- Click-path confidence
- Discovery alignment
- Business value articulation
- Accurate limit/roadmap positioning
- Recovery when the demo changes

Gate:

- Manager or mentor approves the SE to lead demos or provides specific coaching notes before approval.

Final Capstone

The new SE receives a discovery prompt and must deliver:

1. A three-minute demo strategy.
2. A full demo with one deep dive.
3. A short answer to "Why Rev.io instead of the tool we use today?"
4. A follow-up plan with what should be validated after the call.

Passing standard:

The SE sounds like they understand how the prospect runs their business, not just where buttons are in the product.
